## **Request for Proposal: Supply and Installation of Laboratory Furniture and Setup for Physio-Chemical Laboratory at STIC, CUSAT**

### **Introduction:**

STIC invites proposals from experienced vendors to setup and provide laboratory furniture and setup for the Physio-Chemical Laboratory for Food and Water Testing lab at the Sophisticated Test and Instrumentation Center (STIC).

The purpose of this tender is to procure specific laboratory furniture requirements, including granite top laboratory tables, to support the establishment of the laboratory.

### **Scope of Work:**

The scope of work includes,

- Supply and installation of laboratory tables with granite tops, drip dryers, lab sinks, cabinets, and other necessary fixtures as per the attached lab design.
- Optional provision of canopy hoods, which can be shown separately in the proposal.
- Design and layout of the laboratory furniture to ensure optimal functionality and adherence to safety standards.
- Compliance with relevant regulations and standards governing laboratory furniture and equipment.

### **Design Specifications:**

Attach design specifications for laboratory furniture as per the attached lab design

### **Requirements:**

Evidence of a minimum of 10 completed installations of laboratory furniture, along with relevant documentation for each installation.

Qualifications and experience of the vendor in supplying and installing laboratory furniture for similar projects.

Compliance with safety and quality standards in the selection and installation of laboratory furniture and equipment.

Budget estimates for the supply and installation of laboratory furniture, including all associated costs.

### **Submission Guidelines:**

Interested vendors must submit their proposals by email or in sealed envelopes marked "Proposal for Laboratory Furniture" to the address below

**Evaluation Criteria:**

Compliance with submission guidelines and responsiveness to the requirements outlined in the tender document.

Experience and qualifications of the vendor in supplying and installing laboratory furniture for similar projects.

Suitability and functionality of the proposed laboratory furniture design.

Adherence to safety and quality standards in the selection and installation of laboratory furniture and equipment.

Cost-effectiveness and competitiveness of the proposal.
